---

Well, it is my intention to graduate from Hartnell College with a degree in Business Administration. After graduation I plan on successfully opening a restaurant with my wife. I know that the purpose of this assignment is to write a resume but I already have one and as of right now I hope to not need one. One might ask well how do I intend to make money to start this business. Well I also breed show quality American Bully pit bulls and I profit from the sale of these puppies. As you can tell I am not much of a writer as I am already running out of things to say.
